

THE DAILY DEMOCRAT.
PRINTED AND PUBLISHED BY
HARNEY, HUGHES & CO.
BOSTON SIDE THIRD STREET,
BETWEEN MARKET AND JEFFERSON.

SPECIAL ADVERTISING NOTICE.—All advertising in the Public Press, Boston, Odd Fellows' Home, &c., are charged fifty cents per square foot, unless against the first insertion, and twenty-five cents for each subsequent insertion. Advertisements of Elections Wanted, Religious, Charitable, Marriage, and Obituary Notices, of five dollars, and charged five cents each insertion. **ALL TRANSACTIONS ADVERTISED IN THIS PAPER.**

WEDNESDAY, DECEMBER 10, 1856.

The organ has got on its new dress, and the editor is determined to show it can publish as many absurdities in the new type as he did in the old. He has nearly a column of rant and fustion about the President and his message, and the Kansas-Nebraska bill. He gravely informs his readers that the President and his policy have been condemned; that both were condemned at Cincinnati, and that the Kansas-Nebraska act has been repudiated, &c. It is true that the factions have condemned the President's policy; but they have not had the power to reverse it. Now it is sanctioned by the sober second thought of the people. The President still is pledged to it, and a majority of the next Congress will be its uncompromising advocates. Considering these facts, the tirade of the Journal is worthy of nothing but derision. The condemnation of President Pierce, now, is like the administration of Fillmore that was so universal a few short months ago in the columns of the organ.

We don't know that there is anything in the editor's madness; but if there were, we should suspect that he intended to cast a slur upon Fillmore, by making so much of the fact that Pierce was not re-nominated for President; for the country will recall how Fillmore was rejected at Baltimore in 1852; but we presume that the effusions of the editor are the mere outpourings of ill-nature.

The railing at the Kansas-Nebraska act is in the genial style of the Black Republican cohorts. Greeley, or Webb, or Bennett could not do better. The editor thinks the President made a poor defense of the measure; so the whole Black Republican party think; so all the shirkers for negro freedom think; but the rest of mankind have decided otherwise. The President states the case, as it has been presented to the country; and he gives the verdict as has been rendered, and there is no power to change it. Our territorial policy is fixed by that great act, the repeal of the Missouri Compromise; and we don't believe it is in the power of factions to open the question again; a new trial will not be granted. Nothing could be more appropriate than the President's remarks on the Kansas-Nebraska bill. They are just in point. Common respect to the country required of the President's plain statement of the case, and a due sense of his own conduct. He has but discharged his duty, and his account of his policy, and its defense, are unanswerable. There the masson on this point will stand and fustion may grow at it, but they cannot effect it. Of a piece with the ravings of the editor about the President, is his attack on Floyd, of Virginia, and Franklin. They are both weak men, and according to his authority, the latter is not only weak, but he is a Fressier. We shall be told next that Governor Wise is a Fressier, and that the editor of the Charleston Mercury is an Abolitionist. The whole country recollects the speech of Franklin, in which he declined to support Gen. Scott, because he was urged for the Presidency by the Fressier wing of his party. He has hitherto been considered a sir if not an ultra Southern man. The charge of intellectual weakness against either of these distinguished men is not worth a reply.

Another prodigious effort of the editor to prove frauds in the late election, by parading the votes of a number of counties, is ridiculous and contemptible. The most stupendous fraud that has ever been heard of, is the disfranchisement of nine counties in this State by the Frankfort clique, and the refusal to allow the electors to see and examine the excuse for such an extraordinary proceeding. Other abominable frauds in the interpretation of the law as to the right of naturalized citizens were perpetrated in various places in this State. In this city a part of the vote was conquered by a system of terror that had prevailed here for a year or two. This every body knows. The fair majority of the legal vote in this State for Buchanan is over ten thousand, if it were all polled and all counted, as it ought to have been; and if the vote could be retaken it would be nearer twenty thousand than ten.

Bat, perhaps, the editor must be excused, as he is now out of capital. Before the October elections Fillmore was going to carry all the States. Although those elections showed the Democrats successful, and Fillmore invisible, it was maintained that his propects were enhanced; and that the contest was changed to a race between Fillmore and Buchanan. The result in November dispelled this delusion; but it was still uncertain if Buchanan would gain the electoral votes for President. The fire-eaters were going to cast their votes for some one else. This stupid conjecture has passed away, and what remains? What next? If the conductor of the organ has nothing rational to say, he must say something irrational; and experience has shown him that nothing is too absurd for the credibility of his reader. We believe we shall dismiss him until it comes to his senses.

We give below the following account of the work on the Louisville and Nashville road during the month of November. Nothing will be more acceptable to our readers than such information. We are gratified to see the prospects of the speedy success of this great enterprise.

To the Editors of the Louisville Democrat:

A paragraph or two of one or two of the city papers induces the belief that inquiries are often made as to what is doing on the Louisville and Nashville Railroad. We will therefore give you the following report of the Engineer for the month of November:

Louisville, Dec. 6, 1856.

To John L. Helm, President:
I enclose herewith pay roll, vouchers, &c., for work done on the Louisville and Nashville Railroad, from the 1st of November on the main line and Leavenworth branch.

LEAVENWORTH BRANCH.
From the Junction to New Haven, \$4,415.20
From New Haven to Leavenworth, 1,773.15
Total on branch, \$6,188.35

ON MAIN LINE.
First division, \$1,723.37
Second division, including Main, \$1,723.37
drew's Hill, 15,739.63
Third division, 1,629.79
Fourth division in Warren & Simpson counties, 14,565.96
Fifth in Marion and Tennessee, 11,160.86
Total on main line, \$52,345.49

Total for the month, \$59,541.93
Forces of men and horses employed on the day of time was taken.

MEN. HORSES.
Leavenworth branch, 75 15
Second division, 414 229
Third division, 124 79
Fourth division, 364 152
Total, 1,077 323

GEO. MCLOTH.
In addition to the above, I think it can be given assurance that, by the creation of a fund of \$60,000, to be raised on my authority, for vigorous operations for a continuous track from Louisville to Green River, by, if not before, the 1st day of January, 1857. The work will be done during the winter, and will be completed in that month, and during the winter the track carried into Hardin county, and in the spring additional work will be done, so as to have a continuous line overrunning about one mile of Mound's hill.

After the reoccupation of the work on the main line, the construction of a large number of small bridges, &c., were begun in July on the arrival of the second million dollars of the public money, and the work will be completed for a continuous track from Louisville to Green River by, if not before, the 1st day of January, 1857. The work will be done during the winter, and will be completed in that month, and during the winter the track carried into Hardin county, and in the spring additional work will be done, so as to have a continuous line overrunning about one mile of Mound's hill.

The community may rest with perfect confidence that the work will be pressed fast, and that the money can be well disbursed, and that the work will be done, so as to be as inexpensive as it possibly can. The money would be as disastrous as it would be disastrous.

JOHN L. HELM, P. L. & N. R.

The Republican party of Indiana hold a State Convention on the 7th of January next, and the editors of that party gather themselves together on the 6th. The Filibourne are not invited, and it is not certain that they will be admitted to a seat in either gathering.

ENRAGE.—The New York Herald says of the Woman's Rights movement: "The plain fact of the matter is, that all this nonsense about down trodden women is gotten up by a few hundred persons, supposed to be females, but whose sex is not accurately defined by exterior developments."

(From the New York Daily Times.)

Report of the Secretary of War.
The Report of the Secretary of War is submitted.

The authorized strength of the Army is 17,834, the actual strength on the 1st of July was 15,452, the number of enlistments during the twelve months, ending Sept. 30, was 4,440; the number of persons offering to enlist, but who were rejected for minorities or infirmities, was 8,694. The number of desertions during the last fiscal year, by date of discharge and desertion, was 6,996, of which 2,232 were deserters.

The movements of troops for the last year are related briefly.

The Indian difficulties on the Western plains have been successfully terminated, except with reference to the Sioux, who have been reduced during the last year, there has been a considerable decrease of Indian disturbances. It suggests the propriety of removing the fragmentary tribes of Indians in Texas to reservation lands in the United States north of Red River, which would greatly reduce the expenditure for keeping them in subjection by rendering the maintenance of so many military posts unnecessary.

The Indian war on the Pacific is ended. The possessory rights of the Hudson's Bay and Page's Sound Companies are held by persons who own no allegiance to us, but who are inclined for evil in behalf of the Indians. The Report suggests the extinguishment of these rights.

The expense and embarrassment to the service resulting from the present policy of locating military posts in advance of settlement, and along emigrant routes across the continent, continue to be seriously felt. The appropriations for civil engineering in aid of the civil authorities, and Army movements in connection with the Kansas-Nebraska bill, have been entirely changed. It began when the settlers were rapidly pushing their way to the fertile regions of the Valley of the Mississippi. The reports of recent movements of the army in the West, during the last few years, show that with few exceptions the country lying between the hundred meridian of longitude and the coast range of mountains overlooking the Pacific, is not susceptible of cultivation with the tools of civilization, and that it will not be safe to cover it with agriculture.

The limit, therefore, has been reached beyond which civilization has ceased to flow in the train of advancing military posts. A new post established in this desert region does not become the nucleus of settlement, from which a short time previous and longer for a market to develop, and the number of troops required for transportation, and in the small garrisons found at most of the posts. The condition of things led to the adoption of this policy originally, has entirely changed. It began when the settlers were rapidly pushing their way to the fertile regions of the Valley of the Mississippi. The reports of recent movements of the army in the West, during the last few years, show that with few exceptions the country lying between the hundred meridian of longitude and the coast range of mountains overlooking the Pacific, is not susceptible of cultivation with the tools of civilization, and that it will not be safe to cover it with agriculture.

George W. Walker, Dr. Dennis Ryan, Patrick Ryan, Hugh Flanagan, Michael Mahan, Edward Murphy, Paul Brown, John Krueger, Thomas Hart, Dorsey, a colored man (name unknown), Paul Saxe, George Dugan, a couple of deck hands (names unknown), the second steward of the Wounded.

Twenty-seven individuals in all, were found to be scalded, the names of whom, as far as we are aware, we give below:

DAILY DEMOCRAT.

WEDNESDAY, - DECEMBER 18, 1856.

Books in Medicine.
Haley's *Samaritan* commands the largest sale and is the best preparation before the public. Purchase stock to sure and take no other.

Book Notice.
Recollections of a Life-Time. By Men and Women. Five Sets in One Volume. A Series of Familiar Letters to a Friend. Historical, Biographical, Anecdotal, and Descriptive. By S. G. Goodrich. 4 vols. \$12.00. D. Appleton & Co., New York and London.

We have not time to read this book, but in looking over it, we find it contains a vast amount of both instructive and amusing information suited to all ages and classes.

The author, the well known Peter Parley, is the author and editor of 170 volumes, which over seven millions have been sold. He was a private soldier in the war in England in 1812-14. In it will be found a gallery of Pen and Ink Portraits, of over two hundred celebrated persons. It is well gotten up good paper, with gold large type, and contains about twenty-five illustrations. It will make a most acceptable Christmas present for those fond of seeking information. It is for sale by Maxwell & Co. in this city.

THEATER. —A full house last night, and a greatly delighted audience. A second enjoyment of Miss Stanley's entertainment gives us a better opinion than we had yesterday. Many of her impersonations are full of beauty, others of pathos, and others again of lively and rattling spirit. To mention one worthy of mention, would be to call over almost the entire programme; perhaps the best are the third, fourth, and fifth acts, with the musical illustrations. The scenes were perfectly delighted, and convinced that Miss Stanley is a woman of very superior intelligence, and is mistress of a very superior education, not only literary, but musical. She possesses rare gifts as an actress, and in general comedy or maladrama, would create a *sensation*.

Miss Waldegrave's dance was very beautifully executed, and was unexcelled. The after-piece "Mischief Making," is a capital little thing, and was well performed by the principal characters. Mrs. Bernard and Wood Beeson never did better, and kept the audience in a continual good humor. Miss C. Waldegrave's *Theresa* was very respectable. To-night Miss Stanley will repeat her entertainment. Miss Emily will dance La Sylphide, and we shall have another farce. Secure your seats in time.

EXAMINATION OF PRESTON. —The examination of Wm. C. Preston, who has been confined for several days in the Police Court, was partially heard yesterday. Preston is charged with a complicity in the death of Richard, at Portland, on the 6th of November last, for which offence Colker is at present under bonds to answer. The testimony elicited thus far leaves the inference that Preston had an important connection with the difficulty which led to Richard's death. The evidence for the defense, however, has not been heard in full, and we are of course not aware of the force of a palliating weight. The examination will be closed this morning, when Judge Johnson will render a decision.

THE FAIR. —The ladies' fair, at Old-Follow's Hall, gains in point of attraction night by night, and is spent most pleasantly in conversations and promenades, and the pleasure of the night close with a most delightful hop, in a separate apartment. Without making an invincible distinction, we must express our admiration of the part taken by our gallant friends of the Hope Company, who have confided their interests somewhat to the agreeable Miss Maggie Doyle and the charming little Miss Ada Howe.

To-night will be an extraordinary occasion, and no one should fail to attend who has a taste for pleasure or a heart to bestow a charity.

MOZART HALL. —Mr. Donald McLeod's lecture on Queen of Scots, was an elegant and manly defense against the slanders contained by that most angelic lady. He was poetical, satirical, and bitterly topical. His audience listened with rapt attention, save when they interrupted him with enthusiastic applause. Mr. McLeod is the esteemed author of "Blood Stone," and a gentleman of the highest historical and literary attainments. The public would be under a debt of gratitude were he to remain here and give a series of his eloquent lectures.

In Prince Court. —Alexander Husted, the notorious free negro, and a slave of Mr. Hammond, was before the Police Court yesterday, charged with disorderly conduct and stealing some clothing belonging to Mr. Henry J. Lyons and Mr. Simpson. Husted signed out of the hospital in the hospital are suffering greatly, and several of the cases are very serious.

CONSPIRACY OF THE SCALDERS BY THE EXPLOSION OF THE KENTUCKY. —Patrick Ryan, one of the deck hands of the ill-fated Kentucky, died shortly after being taken to the Commercial Hospital. George Weller, also a deck-hand, a resident of Kentucky, O. io, has been admitted into the hospital. He is not expected to survive. The other men in the hospital are suffering greatly, and several of the cases are very serious.

IN BROAD ACCIDENT. —A party of lads in Bridgewater, Penn., who had dug a cave in the side of a hill, whilst they were in the habit of resorting, were on Tuesday last, buried in the earth by the roof of the cave falling in, having become saturated by the recent rains. Two of the lads were taken out dead, and the remainder were severely injured.

THE NEW YORK TIMES COMPANY have made a handsome speculation out of the Bank Church property on Nassau street. They bought about a year since, for two hundred thousand dollars, and the Government has now decided to purchase it for them a Post Office site, for four hundred and fifty thousand dollars.

It is stated by a Paris correspondent of the New York Herald, that the cashier of one of the branches of the Bank of France has disappeared with 400,000 or 500,000 francs, say \$100,000. His family offered to make up the deficiency, but the Bank refused, as he possessed a fortune of his own.

There have been twenty-six sea-going vessels reported to have been totally lost during the past month of November, involving a total loss of \$1,375,800. Value of vessels, \$427,000; cargoes \$948,800. But one of the vessels was reported lost—a sea-

FREMONT AND TOOMES—RUINED DUEL. —A New York correspondent of the Albany Argus says that Colonel Fremont has challenged Toomes, of Georgia, to a duel. Mr. Toomes had made reflections on his birth, and questioned his legitimacy.

It is stated that there are now twenty Indians treated before the Senate, involving the cession of 122,000,000 acres of land for a consideration of about \$11,000,000. The Indians with our limits are estimated at about 300,000 souls.

It was among the loveliest customs of the ancient Greeks to sacrifice to the gods at sunset, for, as they strove to give the softest interpretation to death, so they imagined that Aurora, who loved the young, had stolen them to her embrace.

We regret to learn that Mr. Rose, a highly talented contributor to the editorial columns of the Louisville American, is very seriously ill, and that there is little hope of his recovery.

MARRIED. —In Springfield, Ill., on the 27th November, by the Rev. E. V. Dodge, John McGinnis, Esq., and Lydia, daughter of Joel A. Matteson, Governor of Illinois.

OFF.—The Post Whetstone was received from her perilous situation, at the head of the Falls yesterday, and is now lying at the Portland wharf. She departs to-day.

TAX. —Persons owning property in Jeffersonville, Utica, or any part of Clark county, will find the County Treasurer in Jeffersonville, to day and to-morrow.

GONE TO WASHINGTON. —Dr. Murphy, the indefatigable agent of the Post Office Department, leaves thence for Washington to-day.

Some persons are engaged in gathering tea, which is now between three and four inches thick.

HORN. —We have no change to report in hogs, books.

Fact and Fancy.

Our commercial men, and those who are in the habit of dealing in money and stocks, are familiar with the name of Jacob Little, of New York, and one recognized as a gentleman of unlimited resources. Well, Jacob has made a little failure, which was announced by telegraph, and the particulars of which we have by the paper. Strange to say, Jacob's failure is not accounted for by a pressure in the money market, but by a reversal of ease and laxity in the channels of trade. He attributes his embarrassments to the recent favorable European news, the influx of gold from Australia and California; to the highly favorable condition of the United States treasury; and to the great prosperity of this country, and to the world—all of which combined to embroil the calculations of this hitherto financial King of Wall-street. But the Mirror says that Mr. Little's military price, "a smart recover." The entire street is friendly to him; and the members of the Board (half of whom have made their fortune through big aid and operations), will make a speedy compromise, and Jacob will be himself again. While we have rumors and realizations of rumors of failures in our own local trade to the vaguely small name of Little, two, three hundred thousand dollars, we have the most plausible account of the magnitude of Jacob's failure which runs up into millions. His assets, however, are said to be equally sublime. Other speculations, of course, will follow this of Little's—as Jacob was a "brick," and stood at the head of the row—but Wall-street brokers have a cooperative spirit unknown in other latitudes, and a turn in the tide will doubtless soon flat out here upon the seat of speculation. In this same connection our attention has been called to an

EXTRAORDINARY MATTER OF MONEY DECISION. —Which we find recently delivered by a writer in "My grandmother's review, the British." It seems to be put down as upon the other side of the water, and as the English have over stood Alma Mater to a legal way, the decision may be carried into the common practice here. Who knows but we may be more or less afflicted by it? The writer expresses the opinion that, in a legal point of view, the estate, real and personal, of a lady married to a man of means, is to be put down as upon the other side of the water, and as the English have over stood Alma Mater to a legal way, the decision may be carried into the common practice here. Who knows but we may be more or less afflicted by it?

The writer expresses the opinion that, in a legal point of view, the estate, real and personal, of a lady married to a man of means, is to be put down as upon the other side of the water, and as the English have over stood Alma Mater to a legal way, the decision may be carried into the common practice here. Who knows but we may be more or less afflicted by it?

The writer expresses the opinion that, in a legal point of view, the estate, real and personal, of a lady married to a man of means, is to be put down as upon the other side of the water, and as the English have over stood Alma Mater to a legal way, the decision may be carried into the common practice here. Who knows but we may be more or less afflicted by it?

KELLER & BERRY.

A NEW ENTERPRISE!!

Sloan's Dining Saloon.

MANY OF OUR FIRST CITI-
ZENS have often remarked a desire that an eat-
ing-saloon should be established in L'ville, more
especially for the convenience of ladies and their
friends, who are desirous of dining out, and who
desire to supply this want, and the ladies of Louisville
have at length decided to establish this in Jefferson Street,
between 10th and 11th Streets, and the demands and delectations of the market, which will be
made available.

Also, a large number of persons
are desirous of dining out, and will be supplied
